

LinkJolt fact sheet

For partners writing guides, reviews and assessments of LinkJolt. Every fact was checked against the product on 12 October 2026.

What it is	Affiliate program software for SaaS and online businesses. Merchants run their affiliate program on LinkJolt; their customers pay through the merchant's own payment platform, never through LinkJolt.
Fees	0% transaction fees on every plan. Cancel anytime.
Trial	A 7-day free trial. A card is required to start.
Plans and prices	Listed at linkjolt.io/pricing , monthly or annual.
Payment platforms	Stripe, Paddle, Polar, Creem, Lemon Squeezy, Gumroad, WooCommerce, GoPay, Fourthwall and Apple In-App Purchases.
Tracking	Every affiliate gets a tracking link and can have a coupon code; a sale through either is credited to them. Sales are recorded from the payment platform, including subscription renewals.
Commissions	A percentage or a fixed amount per sale, recurring commissions for subscriptions, and commission tiers that rise with sales.
Paying affiliates	Stripe payouts to affiliates in the US, the UK, the EEA, Canada and Switzerland, automatic on Professional and above. A CSV for paying through PayPal and Wise, for affiliates elsewhere.
Fraud	Rule-based fraud detection, including self-referrals.
Finding affiliates	The Discovery marketplace, where affiliates browse and join programs, on Professional and above.
Affiliate portal	Each affiliate gets a portal with their link, code, clicks, sales and earnings. On Ultimate and Scale it can run on the merchant's own domain.
Switching	Merchants import their affiliates from another affiliate platform or a CSV themselves, in the dashboard.
Developers	A REST API and outbound webhooks, and a connector for AI assistants such as Claude and ChatGPT.
Not offered	A free plan, a money-back guarantee, AI-based fraud detection, a live chat widget, phone support, or a migration done for you.
